

REPORTING RESULTS

Auto-fax

Electronic transfer of test results is provided through AVH Laboratory Meditech System through a dedicated fax server. This system is set up for timely delivery of test results for non-staff physicians. It is also used to fax individual reports by request of AVH staff physicians.

Electronic Reports

Electronic transfer of test results is provided Monday through Friday via the AVH Meditech system, using Telecom capabilities in the Laboratory Module. In addition, Meditech allows for immediate availability of test results as soon as results are reported via the PCI module. If your office would like to be scheduled for daily Telecom lab reports, contact the Laboratory Director at 544-1445, or the LAB Clinical Analyst in the I.T. Department at 544-1514.

Mailed Reports

Mailed reports are provided and indicate patient information, account number, laboratory specimen number, test name, result, and reference values.
